

Integrated systems for your home

At Smart3, we specialise in multi-room audio and visual systems, automated heating and lighting, gate control and biometric fingerprint access. Our customers enjoy comfort, convenience and security - all at the touch of a button.

Fingerprint scanning at the front door lets you in quickly and keeps intruders out.

From home cinemas and CCTV to lighting that matches your mood, Smart3 is at the forefront of intelligent home technology.

Link outdoor security lights and cameras to your central alarm system.

Control the climate in your gym or pool house to harmonize with your workout.

Set lights to dim gently at bedtime or after 10 minutes reading time...

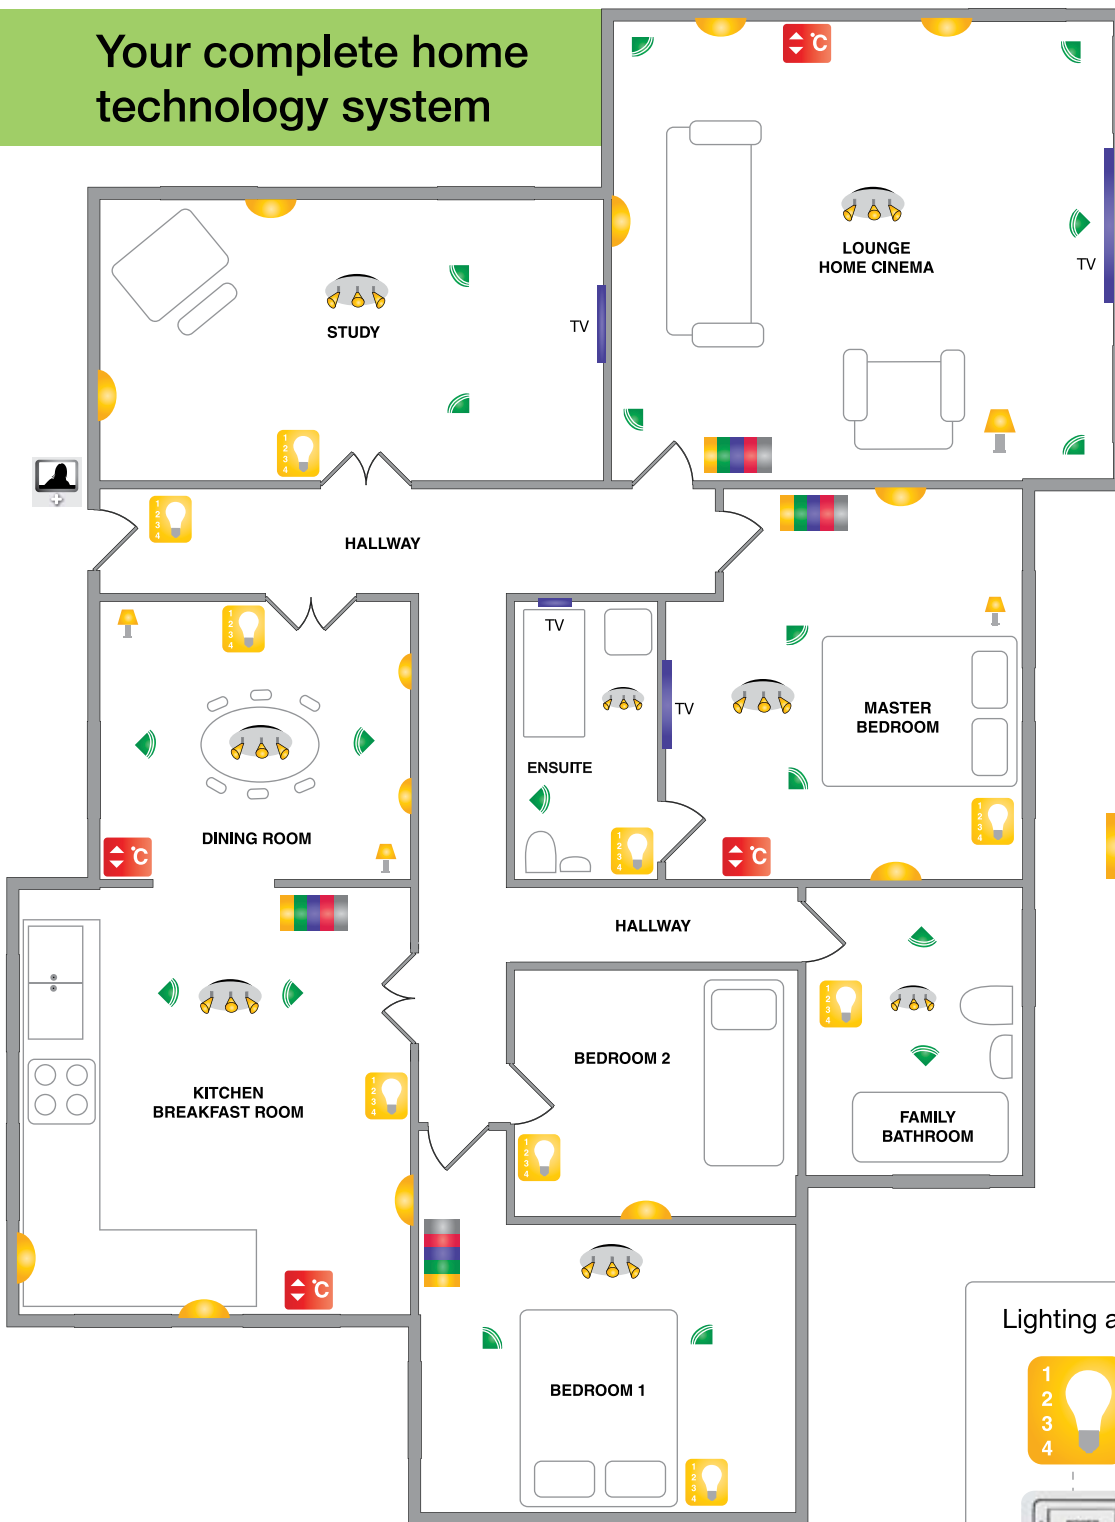

Choose lighting to dine by, chat by or party by with a single stroke of a discreet touchpad.

Wake up to music or gentle lighting -whatever suits you and your lifestyle.

Your complete home technology system
